CAREER OBJECTIVE

- Seeking a visionary Software Engineer role where I can leverage my expertise in Full-Stack Development and Cloud Computing to build secure, high-performance systems, and drive innovation using AI and emerging technologies.

INTERNSHIPS

- Web Development Intern (Octanet Sol.Pvt.Lmt)** *[Virtual]* May-Jun 2024
 - Implemented responsive design techniques to enhance user experience on websites.
 - Completed assigned tasks, optimizing performance, and maintaining web standards and accessibility guidelines.
 - Gained hands-on experience in responsive design, ensuring websites are mobile-friendly and optimized for various screen sizes.

PROJECTS

- Document Sharing Platform using MERN Stack, AWS** Live Demo
 - Collaboratively developed a secure, cloud-based document-sharing platform using React and AWS services (S3, Lambda, DynamoDB) to enable file uploads and access via unique one-time codes.
 - Later independently redesigned the backend using Node.js, Express, and MongoDB, replacing AWS services with a fully custom backend logic for access code generation, file storage, and retrieval.
 - Implemented a responsive UI using React; integrated RESTful APIs for seamless frontend-backend communication.
- E-Commerce Web Application using MERN Stack** Live Demo
 - Built a complete MERN stack e-commerce platform supporting both admin-side product management and user-facing features.
 - This web application demonstrates secure login, efficient product listing with image uploads, and a modular, scalable backend—all within a modern, responsive frontend.
